FRENCH RESEARCH ON MANGROVES. DIRECTORY OF RESEARCHERS, ENGINEERS, POST-DOCTORAL AND DOCTORAL STUDENTS

Christophe Proisy, François Fromard, Adewole Olagoke

► **To cite this version:**

Christophe Proisy, François Fromard, Adewole Olagoke. FRENCH RESEARCH ON MANGROVES. DIRECTORY OF RESEARCHERS, ENGINEERS, POST-DOCTORAL AND DOCTORAL STUDENTS: DIRECTORY OF RESEARCHERS, ENGINEERS, POST-DOCTORAL AND DOCTORAL STUDENTS. [Technical Report] IRD-UMR AMAP. 2015. ird-01160353v2

HAL Id: ird-01160353

<https://ird.hal.science/ird-01160353v2>

Submitted on 13 Jun 2015

HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

FRENCH RESEARCH ON MANGROVES

DIRECTORY OF RESEARCHERS, ENGINEERS, POST-DOCTORAL AND DOCTORAL STUDENTS

13 JUNE 2015

Prepared by:

Dr. Christophe Proisy, IRD-UMR AMAP, Montpellier, France christophe.proisy@ird.fr

Dr. François Fromard, CNRS-UMR ECOLAB, Toulouse, France. francois.fromard@univ-tlse3.fr

Adewole Olagoke, Univ-Dresden/IRD-UMR AMAP/AgroParisTech, Dresden-Montpellier, Germany-France. adewole.olagoke@tu-dresden.de

Foreword:

2015 is declared as the Mangrove Year by the CNRS-INEE (www.cnrs.fr) and the IRD (www.ird.fr), two leading French research institutes on natural ecosystems.

As a contribution to this initiative, we prepared the directory of persons conducting scientific works on mangroves from French research laboratories, national or local organizations and private agencies. We collated the countries of study and the fields of expertise developed by each person.

PhD and post-doctoral students are also included in this database since we consider them as the people of the future.

It is our strong belief that sharing the basic data of these specialists constitutes pivotal information for strengthening national and international scientific works dedicated to knowledge acquisition on mangroves ecosystems and coasts. It is the only way we have to claim the necessity of mangrove preservation worldwide. So, we hope that this directory could be linked to others built in other mangrove countries.

In any case, do not hesitate to distribute the file and/or to contact us.

Mangrovement,

Dr. Christophe PROISY
IRD-UMR AMAP, Montpellier, France

Description of job titles and corresponding codes used in the following tables

Fonction/Grade	Position title	Code
Chargé de Recherche (CR)	Research scientist	RS
Directeur/Délégué régional	Head, administrator	HD
Doctorant	PHD student	DOC
Directeur de Recherche	Senior research scientist	SRS
Enseignant Chercheur	Lecturer	LECT
Ingénieur	Engineer	ING
Post doctorant	Post-doc	PDOC
Professeur	Professor	PR

Just click on the email address to contact someone!

The document is formatted to A3 paper size with landscape orientation.

¹ We grouped countries into regions by following Spalding, Kainuma, & Collins, L. (Eds.) (2010). *World Atlas of Mangroves*. London, Washington D. C., Earthscan, ISBN: 9781844076574.

The GDR LiGA is a French scientific research network which brings together about 60 researchers who study the coastal ecosystems of French Guiana, South America. This research network was created for 4 years (2014-2017) to foster scientific concertation and interdisciplinary programs. The aim is to build a cross-disciplinary vision to set up and lead scientific programs.
